

A CAT is purrfect!

It's cool to be a CAT.

With a combination of Fibreglass & Steel this new hybrid shuttle is clearly the best in its class. Our Superior range of CATs have been created to be both fun and functional, and geared to any work, leisure or lifestyle, need and situation.

Take our SportyCAT for example.

Perfect for Community groups, Schools, Clubs, Sporting codes, Hobbyists or anyone else looking for the most cost effective and efficient way to transport equipment, luggage, gear, support systems, food, drinks, tents... with style!

Simply Superior!

Regardless of what you do, it's amazing how much gear you often have that needs to be transported somewhere. Similarly, as you are representing your business/brand/club/school or even lifestyle, it's important that whatever you're towing has to look the part.

Superior CATs are in a class of their own. Our waterproof trailers with a fibreglass moulded body are modern looking and low maintenance.

Fiberglass is the ideal material to use for shuttles. It has its own structural strength of fibreglassed timber bracing. The smooth finish stays clean and is easily repairable. Moreover, it is completely rust and corrosion proof.

Our trailers are aerodynamic, and our range of designs make them both user friendly and can be matched to your brand or business colours. Purrfect!

**Fully secure, waterproof,
lockable with a superior choice
of colours to fit any style**

Standard SportyCAT Features:

- Fibreglass waterproof moulded body
- Gel coated finish for easy cleaning and smart appearance
- Hot dipped fully galvanised frame manufactured in NZ
- 14" tires with alloy rims
- Jockey wheel with pneumatic tyre
- 1 $\frac{7}{8}$ towball coupling
- Key lockable doors
- Gas struts on all doors
- Rear combination sealed lights (LED/multivolt)
- High stop brake light (LED)
- Interior courtesy light
- Marine Carpet on floor

SportyCAT Door Options:

- Single door – Left hand side door only
- Two doors – LH Side door/rear door
- Three doors – LH & RH side doors/rear door

All our fibreglass bodies are made onsite using extended width axles giving a wider, flat interior floor base. We pay attention to the extra details making our shuttles Simply Superior.

- Wide axel - wide, flat base - easy access

- Boost your branding with colours and wraps

UPSPEC YOUR SportyCAT with these optional extras for an even more Superior look and finish:

- Interior shelving
- Internal tie down points
- 316 Marine-grade stainless steel roof racks
- Spare wheel fitted to front of body
- Spare wheel cover
- Rear stabilisers
- Wheel clamp
- Tow ball lock
- Colour of your choice
- GVM of 1500kgs
- Hydraulic override brakes
- Air vents x2
